The hand recount was conducted by Secretary of State Phil McGrane and a team of 17 election officials from the Idaho Secretary of State's Office, after a discrepancy was reported between the number of ballots cast and the number of voters who participated in the Election. Officials from the Idaho Attorney General's Office, the Elmore County Prosecuting Attorney, and the Elmore County Sheriff observed. Candidates, media and members of the public were in attendance.

"I appreciate the level of detail and openness that went into today's count," said Clerk Essl. "Through this process, we have ensured that every Elmore County ballot was counted and reported."

Secretary of State McGrane added, "In order for our elections to work, voters must have confidence that their votes will count. Today we demonstrated our commitment to ensuring just that. I'm proud of my team and grateful to Elmore County for partnering with us as we've worked to correct this error and investigate what went wrong on election day."

The results of the hand count will now be canvassed and certified by the Elmore County Board of Commissioners at a meeting scheduled for Wednesday, November 26, at 9 a.m. The Secretary of State and the Elmore County Clerk will seek judicial review of the hand count, in accordance with Idaho Code 34-220, before the December 2, 2025 deadline. The judicial review ensures that the process and results receive appropriate legal scrutiny and, if deemed necessary, provides an avenue to call for a new election.
